

PAPPAS DESIGN IS OFFERING A NEW COST-CONSCIOUS CONSUMER DESIGN PROGRAM

360 DEGREES PROGRAM

Make a 360 degree turn for \$360. PAPPAS Design's program, **360 DEGREES PROGRAM** will turn your home into a better space with two full hours of our consultation and design ideas.

In response to these challenging financial times, PAPPAS Design, an award-winning design studio with over 30 years design experience, is offering the following design program:

For only \$360, a PAPPAS Design home space planner/interior designer will personally come to your home to give you ideas about one or more of the following:

- organize your interior spaces from kitchen drawers to laundry room shelves
- select paint colors, lighting fixtures, cabinet knobs, flooring, furnishings, window coverings, moldings and trim, and more
- arrange your existing furniture in a new way, choose some new pieces, or start from scratch
- provide space plan suggestions for your kitchen, bath, laundry, master suite, closet, media room, study, home office, family room - Ideas that show how moving a door or tearing down an interior wall can make a difference
- make recommendations for bigger changes such as additions and how rooms are used and defined - Should your dining room become a family room?
- recommend where to purchase products and services for your home

This program gives you one 2-hour site visit of design consultation within a 25 mile radius of the designer's location. Travel time greater than this radius will incur a travel fee based on distance.

We are dedicated to help you improve your home, reuse what works, recycle what doesn't, and make educated design decisions that affect your budget.

Call 763-377-9870, Monday through Friday to arrange a **360 DEGREES PROGRAM** meeting with our professional and gifted design staff. Otherwise, e-mail us at mj@pappasdesign.com.
