

PAPPAS DESIGN IS OFFERING A NEW COST-CONSCIOUS DESIGN PROGRAM

MAKE YOUR SPACE A BETTER PLACE

When you change your space, plans and specifications are the tools that control your budget and the resulting design. PAPPAS Design, an award-winning design studio with over 30 years design experience, is offering the following design program to help you:

For a fixed fee, PAPPAS DESIGN offers space planning services for one or more rooms, an entire floor, or your entire home according to your needs, wants and existing spaces. The space solution will include placement of built-in cabinetry and furniture. The fee may range from \$180 and up to \$4500 on average with exceptions based on total square footage. The fee will be assessed and approved at the first meeting before the work begins. This program may include one of the following:

- 1) **Plan Review** – Working at your side, a designer will review a plan that has already been designed and drawn by you or another professional. If you provide a hand-drafted drawing, we can provide a hand-sketched solution. If you provide an AutoCAD drawing, we can either hand sketch a solution or we can modify the plan on CAD and provide you with a new printed plan and a CD.
- 2) **Plan Design**
 - a) **Existing Plan Provided by Owner** - Working at your side, a designer will hand sketch a space solution over a blueprint or a scale drawing of the existing space. If you provide a hand-drafted drawing, we can provide a hand-sketched solution. If you provide an AutoCAD drawing, we can either hand sketch a solution or we can modify the plan on CAD and provide you with a new printed plan and a CD.
 - b) **Existing Plan Created By PAPPAS DESIGN**
 - i) An interview will be conducted at the site by a PAPPAS Designer at the same time as the field measure.
 - ii) A field measure of the space(s) to be designed will be conducted at the site and drafted in AutoCAD by a PAPPAS Designer.
 - iii) A print of the existing space(s) will be produced at the PAPPAS DESIGN studio.
 - iv) Working at your side in a subsequent meeting, a designer will hand sketch a space solution over the print of the existing space. We recommend that this meeting occur at the PAPPAS DESIGN studio.
 - v) From the hand sketch, we will draft the new space plan on AutoCAD and provide you with a new printed plan and a CD.

Call 763-377-9870, Monday through Friday to arrange a **Make Your Space a Better Place** meeting with our professional and gifted design staff. Or, send an e-mail message to mj@pappasdesign.com. Learn more about us and see award-winning projects on our website, www.pappasdesign.com.
